

GRADERS QUIT WORK

Orient Graders Leave Road for Harvest Field

FARMERS PAY BIG WAGES

Construction Work at Standstill South of City

Graders of the Orient Construction company have completed the grading to a point within ten miles of Wichita on the south end, according to reports of men in charge, the work is very likely to stop at that point until harvest is over at least.

With the coming of harvest the farmers living along the line need hands and have begun to offer big wages to the graders, much higher than those paid by the Orient. They held off for two or three days, then all made a break for the ripe fields of wheat, and as a result of it, Burrows, commercial agent of the Orient, states that work is almost at a standstill at this end of the line. This same circumstance has frequently happened to railroads in this part of the state, where the wheat harvest is one of the biggest events of the year, and the Orient people were expecting some of the graders to quit, but not in such a wholesale manner. Harvest in this section of the state will not last long and, of course, the graders will want to go back to work when it is over, so the work will again be under way before long.

South of Carmel Mexicans are employed almost altogether on the construction work and as they very seldom take a hand in harvesting the grain on this end of the line is progressing rapidly. The grading is completed to the Cimarron river and rails are laid to that point, while the big bridge across the river is almost finished. The grading is finished to Fairview, O. T., and as soon as the bridge is completed rails will be laid into Fairview. Mr. Burrows stated yesterday that the Orient people expected to be running regular trains between Wichita and Fairview by the first day of July. The present schedule between Wichita and Carmel has proven satisfactory in every way and it is thought that it will not be necessary to change it greatly when the extension is made to Fairview.

CAUSE OF FALLING HAIR.

Dandruff, Which is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, dies up the cuticle in little scales, called dandruff or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the germ. Destroy the cause, you remove the effect. Nothing kills the germ but the hair preparation that kills the dandruff germ. Herpicide is also a dandruff hair dressing.

Sold by leading druggists. Send for in stamps for sample to The Herpicide Co., Detroit, Mich. Moore Drug Company, special agents.

GOOD OIL WELL FOUND.

E. T. Allen Received Word From One in Indiana Field.

E. T. Allen yesterday received a letter from the drifter working on his farm at Gas City, Ind., announcing that a fine oil well had been found on the property. The letter did not state how much the well produced or at what depth it was found. Mr. Allen signed the lease and the oil is being pumped into a tank nearby.

TWO BAND CONCERTS.

Sanford's and Innes' Bands Played Last Night.

Wichita people had the pleasure of listening to two band concerts last night. Sanford's band played on College Hill and Innes' band delighted a crowd in Payson park on the West side. The street cars to College Hill were crowded during the whole evening and after the concert closed it required eight large cars to

bring the crowd back to the city. Last night was the first concert to be given in the new band stand in Payson park and was attended by over 2500 people. Mr. Payne has paid special attention to the lighting of the stand and the band boys said last night that the arrangement was the best they had ever seen. Innes' band will give a concert each week in Payson park.

WAS NOT ARRESTED.

Jake Hansen Explains His Possession of Wagon.

Jake Hansen, the man arrested on the charge of stealing a wagon from John Hansen, and whose hearing is set for this morning, made the following statement to the Eagle last night: "I bought the wagon of John Hansen, paid him \$5 and still owe him \$7. I meant to pay him the remainder as soon as I could. I was not arrested. I met Sheriff Schuch at Hutchinson and came home with him."

GUARANTEED BY WICHITA DRUGGISTS.

Money Returned if Hyomel Does Not Cure Catarrh.

The well known properties of eucalyptus oil makes it of great value in treating diseases of the respiratory organs, such as catarrh, asthma, bronchitis, etc. This valuable medicinal oil is the base of the famous Hyomel, and is combined with healing balsams which make this treatment one that not only kills the germs of disease, but heals and soothes the irritated mucous membrane and restores perfect health.

There is no dangerous stomach druging when using Hyomel. It is breathed through a patented pocket inhaler that comes with every \$2.00 outfit, so that the balsamic air penetrates to the most remote part of the throat and lungs. It searches out and kills disease germs in the minutest air cells. It soothes and cures all irritation of the mucous membrane. Its power to cure diseases of the respiratory system is simply marvelous.

The most prominent men and women in the world have given grateful testimony to Hyomel. It is the only treatment for catarrh that is sold under positive guarantee to refund money if it does not cure.

A complete Hyomel outfit consists of a hard rubber inhaler that can be carried in the vest pocket or purse, lasting a lifetime, a medicine dropper and a bottle of Hyomel. Extra bottles of Hyomel can be procured for 50c.

Do not suffer longer with catarrhal disorders, but use Hyomel and be cured.

AT BRIDE'S HOME.

Miss Nellie Rafferty and Herbert Swartout Married Last Night.

Miss Nellie Rafferty and Mr. Herbert Swartout were quietly united in the holy bonds of matrimony last evening at the home of the brides parents, Mr. and Mrs. W. O. Rafferty, 4th North Wichita avenue. The house was very beautifully decorated for the occasion with fresh flowers and palms. At a little after eight the young couple marched down the hall to the strains of Mendelssohn's wedding march into the parlor and took their places under a bower of smilax where they were united by Rev. Lynch with the ring ceremony.

The presents were many and varied.

FIFTY HYDRANGIA BLOSSOMS.

Are to Be Seen on One Plant in Mr. Woody's Yard.

At the residence of Mr. Woody, corner of Lawrence avenue and Fourteenth street, is one of the finest specimens of hydrangia ever seen in this city. The plant stands about five feet high and over fifty blossoms are to be seen at the present time. The plant is an exceedingly hardy one and, being covered with light purple flowers, has a most pleasing appearance.

MARRIED AT MULVANE.

Wellington Man Takes unto Himself a Mulvane Bride.

Two young people well known in Wichita were married at high noon yesterday at the bride's home in Mulvane. They were Walter G. Moody and Wellington and Miss Ethel R. Shoup of Mulvane. The ceremony was performed by Rev. F. E. Gordon. Both the bride and groom have many friends in this city. They will make their home in Wellington.

Judge Foster of Chicago is here visiting J. W. Hendee, 78 North Market. He is on his way to El Paso, Texas, on business. Mr. Foster has not been here since shortly after the boom. He thinks Wichita is one of the finest cities in the southwest.

POUR OIL ON WATER

Park Commissioners Begin War on Mosquitoes

USED 200 GALLONS

Crude Oil Spread on All Stagnant Ponds in Parks

Mosquitoes would do well to pack up their duds, put their stingers in a telescope and make tracks for other fields before the park commissioners and their barrels of petroleum get a chance to put some "dope" on their wings and prevent escape. All Riverside "skeeters" are doomed to death and destruction unless they travel to other climes in which to carry on their nefarious calling.

The "skeeters" will be driven out of Riverside park on account of the overproduction if the park commissioners and other hard-hearted men and women would leave them alone. The number of mosquitoes grows at the rate of a thousand a second in every pool in the parks and all became very busy Sunday afternoon and evening. They were so thick that a person could not navigate without taking soundings. Of course a few thousand were killed, but Riverside Park was deserted Sunday night. The "skeeters" drove their prey away.

The pesky little "skeeters" should change their stamping grounds now. They would find a fine crowd of men, women and children at Winfield on whom they could practice and sharpen their bills to their hearts' content, and the Chautauquians would not say a word.

The Wichita "skeeters" do not need any practice or flies, grimy-stones or other paraphernalia commonly used in making sharp edges on instruments of torture or utility. The Wichita "skeeter" can set on a log and tie his bill in three seconds with his toe nail and the stickler will be sharp enough to penetrate three thicknesses of cashmere and get blood at every trial. He sings a very entertaining song during the process.

But the park commissioners have decreed that there shall be war, war to the death against every mosquito in Wichita. Yesterday they purchased 200 gallons of crude petroleum and poured it on the pools of water left in the park by the floods. There are many pools in the parks, especially on the west side of Central Riverside and these pools of stagnant water bring forth thousands of mosquitoes every day. Last year the commissioners experimented with crude oil and found it very effective in exterminating the pests. This year they have started the work on a larger scale and will keep the ponds covered with the oil throughout the summer. Two hundred gallons were used yesterday. Mosquitoes do not travel far from the spot where they were given life and it is comparatively easy to almost entirely exterminate them by the systematic use of crude oil. The oil is poured on the water until the pond is completely covered. The oil cuts off the air from the water, and no animal life can survive in the pools. The mosquito is a short-lived insect and those which escape the oil can survive but a few hours.

The people in the neighborhood of the parks have had all kinds of trouble lately on account of the pests. One driving along any of the streets close to the river could find flies burning in almost every front yard. It is impossible to keep the ponds covered with the oil unless all doors are shut, and during the warm weather this cannot be done, so the people keep the fires burning until a late hour and so keep the pests away. The park commissioners have promised, however, that within two days there will be an appreciable decrease in the number of mosquitoes flying around this city.

COLLEGE HILL EXTENSION.

Water-Works Company to Put in Pipe Lines Soon.

The waterworks company is figuring on an extension of its system on College Hill. They will extend it by tapping the large main at the corner of Douglas and Mosley avenue, and laying pipes to the new Country club house and other places on College Hill. It is practically certain that this extension will be made, and the waterworks company will

GUARD YOUR HEALTH

No woman can be too careful to see that the periodical function is kept in a healthy condition. The easiest and most certain way to do this is to take an occasional dose of Wine of Cardui to invigorate the organs which need reinforcement.

Every woman is subject to some conditions which bring on female weakness. Wine of Cardui gives women strength for all the duties of life. It gives them strong nerves, pure blood freedom from pains and sickness.

Make up your mind to have perfect health. Wine of Cardui not only cures, but it guards and keeps the health. The organs quickly respond to the healing vegetable ingredients of which Wine of Cardui is composed. A healthy woman does well to take this medicine on approaching her periodical sickness. Occasional doses of Wine of Cardui save expensive services of a doctor.

Wine of Cardui cures the worst cases of prolonged female troubles, and has cured thousands of them quickly and completely in the privacy of the home. But why wait until you are sick to guard your health? It is better to keep in health than to fight chronic disease. Take a little thought and keep your health good without undergoing pain and suffering.

Chicago, Ill., May 1, 1902.

Wine of Cardui and Theodor's Black-Draught are a sure cure for all female diseases. I recommend your medicines to all my friends everywhere I go. Five months ago I could not walk across the house without great pain, but I am well again. I have only taken four bottles of Wine of Cardui, but feel better than I have felt in two years.

Sand Lake, Mich., June 10th, 1902.

I must write and thank you for the good your Wine of Cardui has done me. Twenty-one years ago Wine of Cardui saved my mother's life, in Allen County, Indiana, and thinking of that three weeks ago I purchased a bottle. It is the medicine a woman needs.

Regular review of Wichita Tent No. 2, Knights of the Marches, this evening. Election of officers. Every member of the tent is requested to be present.

Special communication of Wichita Lodge

ALEXANDER AN IMBECILE.

Says Lou Springer, Now Authority on Servian Affairs.

It may be of interest to Wichita people to know that when Lou Springer, formerly a reporter on this paper, left the Eagle, he visited the kingdom of Servia and knew personally the murdered monarch, Alexander. Springer is now with the Kansas City Journal and because of his knowledge of Servian conditions, his newspaper matter is in great demand. Springer says Alexander was but little better than an imbecile.

RECORD FOR WICHITA.

George Harris Has Lived in Same House 32 Years.

City Treasurer George Harris moved yesterday from his home in the Second ward, having been an occupant of one house for thirty-two years, which is the record for Wichita. It is believed also that he has voted longer in the same precinct than any other resident of this city. His first vote in the Second ward was for E. B. Allen, Wichita's first mayor, and his last for Victor Murdock, its present congressman.

TO ORGANIZE NEW LODGE.

Fifty Men Will Meet in the F. A. A. Hall Tonight.

About fifty men will meet this evening in the F. A. A. Hall, over G. Gehrigs store to organize a new chapter of the Ancient Order of Pyramids. They have been working on this for a long time and have everything in shape to insure a prosperous future. Tonight they meet to elect officers and to perfect an organization.

CITY IN BRIEF.

Mr. Ed Lehman has returned from Newton.

Wm. G. Hacker went to Augusta yesterday.

Grape-Nuts

FAT vs BRAIN

Food that Makes Brilliant Newspapers.

Nervous prostration cannot continue if the right kind of food is used, but food that will build fat does not always contain the elements necessary for rebuilding the soft gray matter in the nerve centers.

A lady tells how she got well from using Grape-Nuts Breakfast Food. "I was treated by several physicians at the hospital. My disease was pronounced neurasthenia (nervous prostration). The doctors gave me various nerve tonics without producing any beneficial results. I finally got so weak that I could not work either physically or mentally."

"About two years ago I began the use of Grape-Nuts and a marked improvement set in at once. In eight weeks I had regained my strength and could do my old work even better than before, that of writing for the press. All honor to Grape-Nuts."

Name given by Postum Co., Battle Creek, Mich.
